### *The complete STAINMASTER® carpet system*

Enhance the lasting beauty of your STAINMASTER® carpet by installing STAINMASTER® carpet cushion. Together, they form the ultimate system for stain and odor protection.

#### **STAINMASTER® carpet cushion:**

##### **Makes clean-up easier and stops reappearing stains**

With ordinary carpet cushion, spills can soak through the carpet and remain in the cushion. The breathable moisture barrier on STAINMASTER® carpet cushion blocks moisture, so spills remain above the cushion where they can be completely removed. This makes your STAINMASTER® carpet even easier to clean. And because spills are more thoroughly cleaned, they can't cause reappearing stains.

##### **Prevents subfloor damage**

When spills penetrate ordinary carpet cushion, the moisture stays in contact with the subfloor. With STAINMASTER® carpet cushion, the spill never reaches the subfloor, so it's always protected from moisture damage.

##### **Uses odor-eliminating technology**

The STAINMASTER® carpet cushion breathable moisture barrier minimizes objectionable odors by preventing liquids from soaking into the cushion. Spills such as milk and pet accidents, if absorbed into your carpet cushion, will linger and cause odors for years. This won't happen with properly installed STAINMASTER® carpet cushion because the moisture barrier prevents liquids from soaking into the cushion. These spills remain on top of the cushion where they can be treated and removed during cleaning.

Using a carpet odor and spot remover like Z-LEX® Carpet Odor and Spot Remover with any STAINMASTER® carpet cushion will minimize odors that may remain in the carpet after most common household spills and pet accidents are cleaned. Z-LEX® Carpet Odor and Spot Remover soaks through the carpet to the moisture barrier, helping to minimize all lingering odors top to bottom.

### *Extend your STAINMASTER® carpet limited warranties with STAINMASTER® carpet cushion*

**3**  
years

We are so confident STAINMASTER® carpet cushion will improve the performance of your STAINMASTER® carpet that when you purchase and install the two together, we'll extend your carpet limited warranties by 3 full years.
